INSPIRING WORDS FROM STUDENTS...

“Crossroads has been the center of my busy college life. It’s where I find God, peace, love, and a community within the craziness of college. I can go there and leave all my stress behind and focus on God. I can go there and find a loving and welcoming community there to support me. I can go there and find peace. My favorite part of Crossroads is bible study. I feel safe to be curious and ask questions and learn more about our loving God.”- Katie

"I can truly say that as my college years come to a close, the LCC has made me a more open, faithful, active, and loving human. In this quaint coffee shop location, some of my lowest and highest points of college were experienced. And in all of those stages, I was met with support, listening and understanding from all at the LCC. The LCC has taught me how to love with a Christ-like love, and I hope to carry that love on with me for the rest of my days." -Taylor
